

## Microk8s

```
conjure-up kubernetes
microk8s
microk8s.kubectl get no
microk8s.kubectl get all
microk8s.kubectl get all --all-namespaces
microk8s.enable dns dashboard
microk8s.kubectl get all --all-namespaces
microk8s.get all
microk8s.kubectl run nginx --image nginx --replicas 3
microk8s.kubectl get all
microk8s.kubectl expose deployment nginx --port 80 --target-port
80 --type ClusterIP --selector=run=nginx --name nginx
microk8s.kubectl get all
lynx <IP address of service/nginx>
microk8s.kubectl delete deploy/nginx
microk8s.kubectl delete svc/nginx
microk8s.disable dashboard dns
microk8s.kubectl get all
microk8s.kubectl get all --all-namespaces
```
